## SEEDS OF TREES AND SHRUBS

All our seeds are gathered when fully ripe, and are dried in the shade with a good circulation of air; they are then cleaned and stored in a cool place away from artificial heat or dampness; we claim for them the highest possible vitality, and reports confirm our belief. (d,b.) indicates dried berries, all others cleaned.

| | Price per Ounce, | pound. |
|---|---|---|
| Acer glabrum | $0.15 | $1.25 |
| Alnus tenuifolius | .50 | |
| Amelanchier alnifolia (d.b.) | .50 | |
